Status: ADOPTED

Policy 3514: Environmental Safety

Original Adopted Date: 01/16/2018

The Board of Trustees recognizes its obligation to provide a safe and healthy environment at school facilities for students, staff, and community members. The Superintendent or designee shall regularly assess school facilities to identify environmental health risks. He/she shall establish a comprehensive plan to prevent and/or mitigate environmental hazards based on a consideration of the proven effectiveness of various options, anticipated short-term and long-term costs and/or savings to the district, and the potential impact on staff attendance, student attendance, and student achievement.

- (cf. 0200 Goals for the School District)
- (cf. 1312.4 Williams Uniform Complaint Procedures)
- (cf. 3516 Emergencies and Disaster Preparedness Plan)
- (cf. 3516.3 Earthquake Emergency Procedure System)
- (cf. 3517 Facilities Inspection)
- (cf. 4157/4257/4357 Employee Safety)
- (cf. 5030 Student Wellness)
- (cf. 5142 Safety)
- (cf. 7111 Evaluating Existing Buildings)

Strategies addressed in the district's plan shall include, but not necessarily be limited to, the following:

- 1. Ensuring good indoor air quality by maintaining adequate ventilation; using effective maintenance operations to reduce dust, mold, mildew, and other indoor air contaminants; and considering air quality in the site selection, design, and furnishing of new or remodeled facilities
- (cf. 3513.3 Tobacco-Free Schools)
- (cf. 5141.23 Asthma Management)
- (cf. 6163.2 Animals at School)
- (cf. 7150 Site Selection and Development)
- 2. Limiting outdoor activities when necessary due to poor outdoor air quality, including excessive smog, smoke, or ozone, or when ultraviolet radiation levels indicate a high risk of harm
- (cf. 3516.5 Emergency Schedules)
- (cf. 5141.7 Sun Safety)
- (cf. 6142.7 Physical Education and Activity)
- 3. Reducing exposure to diesel exhaust and other air contaminants by limiting unnecessary idling of school buses and other commercial motor vehicles
- (cf. 3540 Transportation)
- (cf. 3541.1 Transportation for School-Related Trips)
- (cf. 3542 School Bus Drivers)
- 4. Minimizing exposure to lead in paint, soil, and drinking water
- 5. Inspecting facilities for naturally occurring asbestos and asbestos-containing building materials that pose a health hazard due to damage or deterioration and safely removing, encapsulating, enclosing, or repairing such materials

6. Ensuring the proper storage, use, and disposal of potentially hazardous substances

(cf. 3514.1 - Hazardous Substances)

(cf. 6161.3 - Toxic Art Supplies)

7. Ensuring the use of effective least toxic pest management practices

(cf. 3514.2 - Integrated Pest Management)

8. Instituting a food safety program for the storage, preparation, delivery, and service of school meals in order to reduce the risk of foodborne illnesses

(cf. 3550 - Food Service/Child Nutrition Program)

In promoting the health and safety of students and staff, and in compliance with its duty to provide an environment free from life hazards, new wireless telecommunication transmitter installments are prohibited on all school premises. For existing wireless telecommunication transmitter installment leases within the District, the District shall not extend or renew such leases. For all existing and operating cellular transmission towers situated on District property, the District shall engage a third-party monitoring vendor to monitor and report on all emissions from the cellular transmission towers, and shall transparently make that reported data available to the public.

In developing strategies to promote healthy school environments, the Superintendent or designee may consult and collaborate with local environmental protection agencies, health agencies, and other community organizations.

(cf. 1020 - Youth Services)

The Superintendent or designee shall provide the district's maintenance and facilities staff, bus drivers, food services staff, teachers, and other staff as appropriate with professional development regarding their responsibilities in implementing strategies to improve and maintain environmental safety at the schools.

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

(cf. 4331 - Staff Development)

The Superintendent or designee shall notify the Board, staff, parents/guardians, students, and/or governmental agencies, as appropriate, if an environmental hazard is discovered at a school site. The notification shall provide information about the district's actions to remedy the hazard and may recommend health screening of staff and students.

(cf. 5141.6 - School Health Services)
