Environmental Health Trust

Education, Research and Policy to Reduce Environmental Risks

Dear President Obama

Let's not be Clueless About Wireless. [Please read my open letter to President Obama requesting that we start with a comprehensive understanding of the biological effects of wireless technology before we cover our schools with wireless radiation.](#) - Devra Davis, Founder (www.ehtrust.org)

Open Letter to President Obama about Wireless Radiation

Before this nation makes Wi-Fi as prevalent in schools as it is in coffee shops, as the president recently urged, we need to consider what this could do to our children's brains and bodies. We need a full life-cycle assessment of economic and health costs and benefits of wireless technology before covering our preschools, kindergarten, and middle schools

with wireless radiation. [Learn more](#)

Three Years Later

March 11, 2014 marked three years since the devastating earthquake and tsunami in Japan caused a triple meltdown and multiple explosions at the Fukushima Daiichi nuclear power plant. Approximately 160,000 people have become homeless. [Learn more](#)

The Invisible Web that Connects Our Devices

Listen to a week-long series about digital communication devices and the way they influence our health, as well as our public and private space. Cell phones and computers have revolutionized how we communicate, but how do they really work? [Learn More](#)

EHT needs your help to complete our infant and toddler brain modeling study to learn the true levels of radiation that young children absorb from wireless devices. Although millions of young children are using devices today, nobody can tell us what this may mean for their health. [Learn More](#) about what it means to be a volunteer.
