

Worldwide Awareness on the "Mirage" of 5G

"Former national finance minister Lou Jiwei warned last month that existing 5G technology in China is immature and quite expensive. Increased electricity costs to fuel 5G in 2019, he recently warned, look to be 10 times the profit of China Telecom."

"Why the Race to 5G is a Mirage"

by Devra Davis PhD, MPH

International Business Times 12/13/2020

BOYCOTT 5G PHONES

Radio frequency exposure of people living near mobile-phone base stations in France

Mobile-phone base stations antennas are the dominant source of exposure in housing near antennas and indoor exposure was increased when the windows were in line of sight of antennas.

Effects of different mobile phone UMTS signals on DNA, apoptosis and oxidative stress in human lymphocytes

"Our data support a notion that each specific signal used in mobile communication should be tested in specially designed experiments to rule out that prolonged exposure to RF from mobile communication would induce genotoxic effects and affect the health of human population."

The association of smart mobile phone usage with cognitive function impairment in Saudi adult population (PDF)

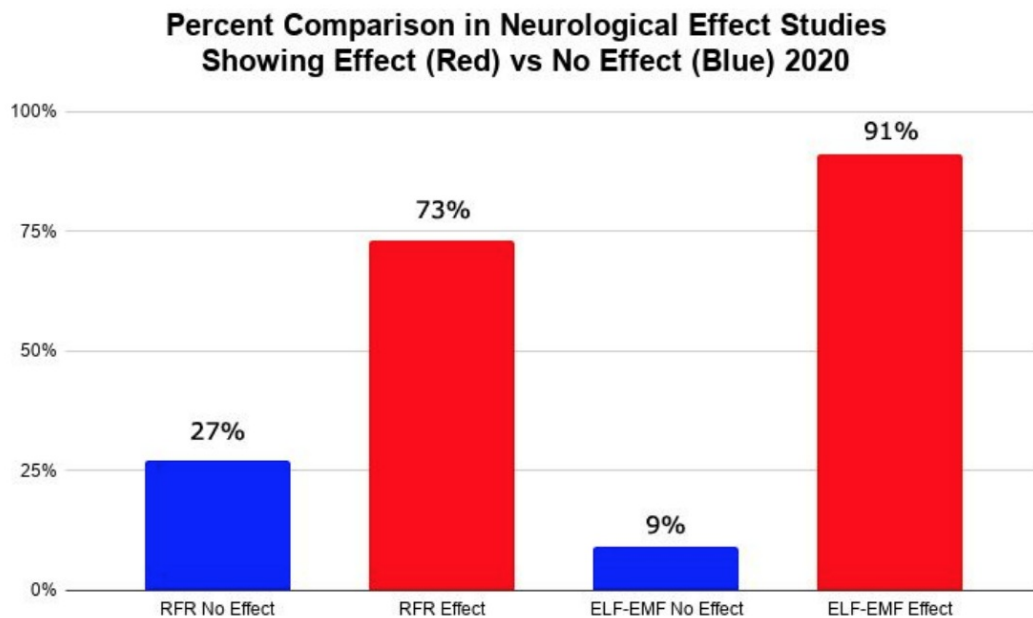

Excessive use of mobile phones associated with cognitive function impairment. "Strict policies must be implemented."

Comparing chromosome damage induced by mobile telephony radiation and a high caffeine dose: Effect of combination and exposure duration (PDF)

Mobile telephony EMF exposure ~ 136 times below the official limit (ICNIRP 2020) exerts a genotoxic action even greater than that of a caffeine dose ~ 290 times above the corresponding limit.
