RE: SB 649 (Wireless telecommunications facilities)

Dear Governor Brown:

**SB 649 poses a serious threat to public health** in California. Your veto would protect the California public from millimeter radiation exposure and limit increases in microwave radiation exposure.

We are all at risk from these toxic exposures until our nation adopts biologically-based standards for radio-frequency radiation.

Along with more than 180 scientists and doctors, I have signed a declaration calling for a **moratorium on the increase of cell antennas for planned 5G expansion** due to concerns about the health effects including **neurological impacts, infertility, and cancer**. "We are very concerned that the added exposure to 5G radiation could result in tragic, irreversible harm."

The declaration and list of signatories is attached.

For more information about the health effects of cell tower radiation see my Electromagnetic Radiation Safety ([saferemr.com](http://saferemr.com)) website at <http://bit.ly/5Gscienceappeal>.

Sincerely,

A handwritten signature in black ink that reads "Joel M. Moskowitz".

Joel M. Moskowitz, Ph.D.
