EHT needs your help to complete our infant and toddler brain modeling study to learn the true levels of radiation that young children absorb from wireless devices. Although millions of young children are using devices today, nobody can tell us what this may mean for their health.

We're just like you. We're teachers, business executives, parents, retirees, students...you name it. But the one thing we all have in common is our dedication to change. And the more volunteers we have, the bigger impact we can all make. Together.
