Igor Belyaev, PhD, Dr.Sc.  
Associate Professor  
Head, Department of Radiobiology  
Cancer Research Institute,  
Biomedical Research Center of the Slovak Academy of Science

Dear Dr. Belyaev:

Thank you for your letter. We welcome all input to this topic. FDA continually monitors all credible scientific information and maintains that the totality of scientific evidence continues to support its determination that current emission limits are appropriate for the protection of human health.

If new and credible scientific evidence emerges that changes our position, we will make that public through our standard communication channels.

Sincerely,

Jeffrey Shuren, MD JD  
Director, Center for Devices and Radiological Health  
U.S. Food and Drug Administration
