

**TOWN OF JACKSON PROCLAMATION  
DECLARING OCTOBER CELL PHONE SAFETY AWARENESS MONTH**

**WHEREAS**, more people use cell phones today than ever before because of their convenience and portability; and,

**WHEREAS**, the Jackson Town Council considers the health and welfare of the citizens of the Town a priority; and

**WHEREAS**, some research links texting with cell phones to traffic accidents, and also links longer term use with increased risks of brain cancer, reproductive damage, and other illnesses; and,

**WHEREAS**, these longer term risks may be greater for children than adults because their skulls are thinner and their brains and bodies are smaller and faster growing; and,

**WHEREAS**, phones emit more radiation in weak signal areas as they attempt to connect to a tower; and,

**WHEREAS**, simple steps such as holding the phone farther away from your ear, turning off your phone when not in use, checking the specific absorption rate of your phone, and using a headset significantly reduces radiation absorption; and,

**WHEREAS**, recent studies have confirmed the risks of cell phone radiation such as Yale University's report that prenatal exposures affect brain development and behavior in offspring and the Government Accountability Office's review advising that cellphone tests and standards should be revised; and,

**WHEREAS**, Israel, France, and India have all developed policies to advise parents of risks of cell phones and to require that cell phones be sold with headsets; and,

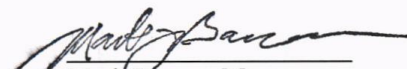

**WHEREAS**, cell phones manufacturers provide fine print warnings to promote safer cell phone use; and,

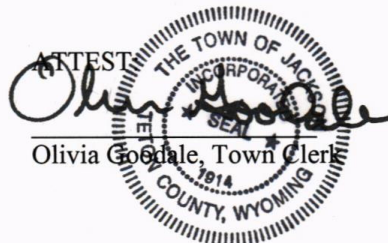

**WHEREAS**, cell phones are important for communication and safety reasons, but all people, and especially parents of young children, should be aware of how to reduce risks from cell phone use.

**NOW THEREFORE**, I, Mark Barron, Mayor of the Town of Jackson do hereby declare the month of October, 2012 as **Cell Phone Awareness Month** and, in so doing, urge citizens to become aware of the risks associated with prolonged cell phone use and to take steps necessary to mitigate these risks to themselves and the children in their care.

**DATED THIS 1<sup>st</sup> Day of October, 2012.**

TOWN OF JACKSON

**TOWN OF JACKSON PROCLAMATION  
DECLARING OCTOBER CELL PHONE AWARENESS MONTH**

**WHEREAS**, More people use cell phones today than ever before because of their convenience and portability; and,

**WHEREAS**, the Jackson Town Council considers the health and welfare of the citizens of the Town a priority; and

**WHEREAS**, research studies have linked the use of cell phones to brain cancer and other illnesses because radiation is absorbed by the body as a cell phone sends out its signal; and,

**WHEREAS**, these risks may be greater for children than adults because their skulls are thinner and their brains and bodies are smaller; and,

**WHEREAS**, phones emit more radiation in weak signal areas as they attempt to connect to a tower; and,

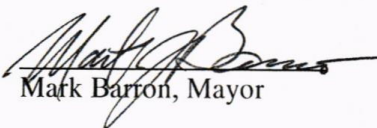

**WHEREAS**, simple steps such as holding the phone farther away from your ear, turning off your phone when not in use, checking the specific absorption rate of your phone, and using a headset significantly may reduce the radiation absorbed into your body; and,

**WHEREAS**, cell phones are important for communication and safety reasons, but all people, and especially parents of young children, should be aware of how to reduce risks from cell phone use;

**NOW THEREFORE**, I, Mark Barron, Mayor of the Town of Jackson do hereby declare the month of October, 2010 as **Cell Phone Awareness Month** and, in so doing, urge citizens to become aware of the risks associated with prolonged cell phone use and to take steps necessary to mitigate these risks to themselves and the children in their care.

**DATED THIS 24<sup>th</sup> day of May, 2010.**

TOWN OF JACKSON

  
Mark Barron, Mayor

ATTEST:

  
Roxanne Robinson, Town Clerk
