*Education, Research and Policy to Reduce Environmental Risks*

## Harvard and Yale Constitutional Law Experts Defend Cell Phone "Right to Know" Ordinance Against Industry Lawsuit

The CTIA claims that the ordinance violates the First Amendment rights of cell phone retailers. [Read More](#)

## EHT Experts Brief Massachusetts State House: Public's Right to Know Latest Science on Cell Phone Risks

At a standing room only briefing in June, Boston legislators heard from former Microsoft North America President Frank Clegg, Dr. Catherine Steiner-Adair, author of The Big Disconnect, Dr. R.S. Sharma, Deputy Director General Indian Medical Research Council. [Read More](#)

## The Canadian Parliament calls for major research and public education awareness campaign on public health risks of wireless

The Standing Committee on Health issued "Radio Frequency Electromagnetic Radiation and the Health of Canadians" in June. [Read More](#)

## The New York Times: Screen Addiction is Taking A Toll

Dr. Catherine Steiner-Adair recommends parents pay more attention to their children than to their phones in two recent NYT blogs.

[Learn more](#) about how you can take action.

EHT needs your help to complete our infant and toddler brain modeling study to learn the true levels of radiation that young children absorb from wireless devices. Although millions of young children are using devices today, nobody can tell us what this may mean for their health.

We're just like you. We're teachers, business executives, parents, retirees, students...you name it. But the one thing we all have in common is our dedication to change. And the more volunteers we have, the bigger impact we can all make. Together.

HELP US! Do something that's never been done in the entire world before. Figure out precisely how laptop radiation enters the body and what you can do to reduce exposing your reproductive organs.
