Education, Research and Policy to Reduce Environmental Risks

How Should Government Face the Public Health Issue of Wireless Radiation?

Canadians are Not Protected: Health Canada Gets an F!

Frank Clegg, former President of Microsoft Canada and CEO of Canadians for Safe Technology (C4ST) held a public hearing detailing how Canadians were not protected by Safety Code 6's radio frequency radiation standards. [Learn More](#)

Public Health Impacts of Wireless Radiation: "Flying Blind"

Fresh from the Cape Town, South Africa meeting of the Bioelectromagnetics Society, Dr. Devra Davis explores the critical need for research, funding, and training in the human health and environmental implications of wireless electromagnetic radiation in her recent Huffington Post article. [Learn More](#)

What are the Full Economic, Health, and Security Costs and Benefits of Wired Versus Wireless Technology?

Canada's parks may soon be more like coffee shops, with hotspots for wireless devices. Yet reports are mounting of ecological effects, such as birds and insects becoming disoriented

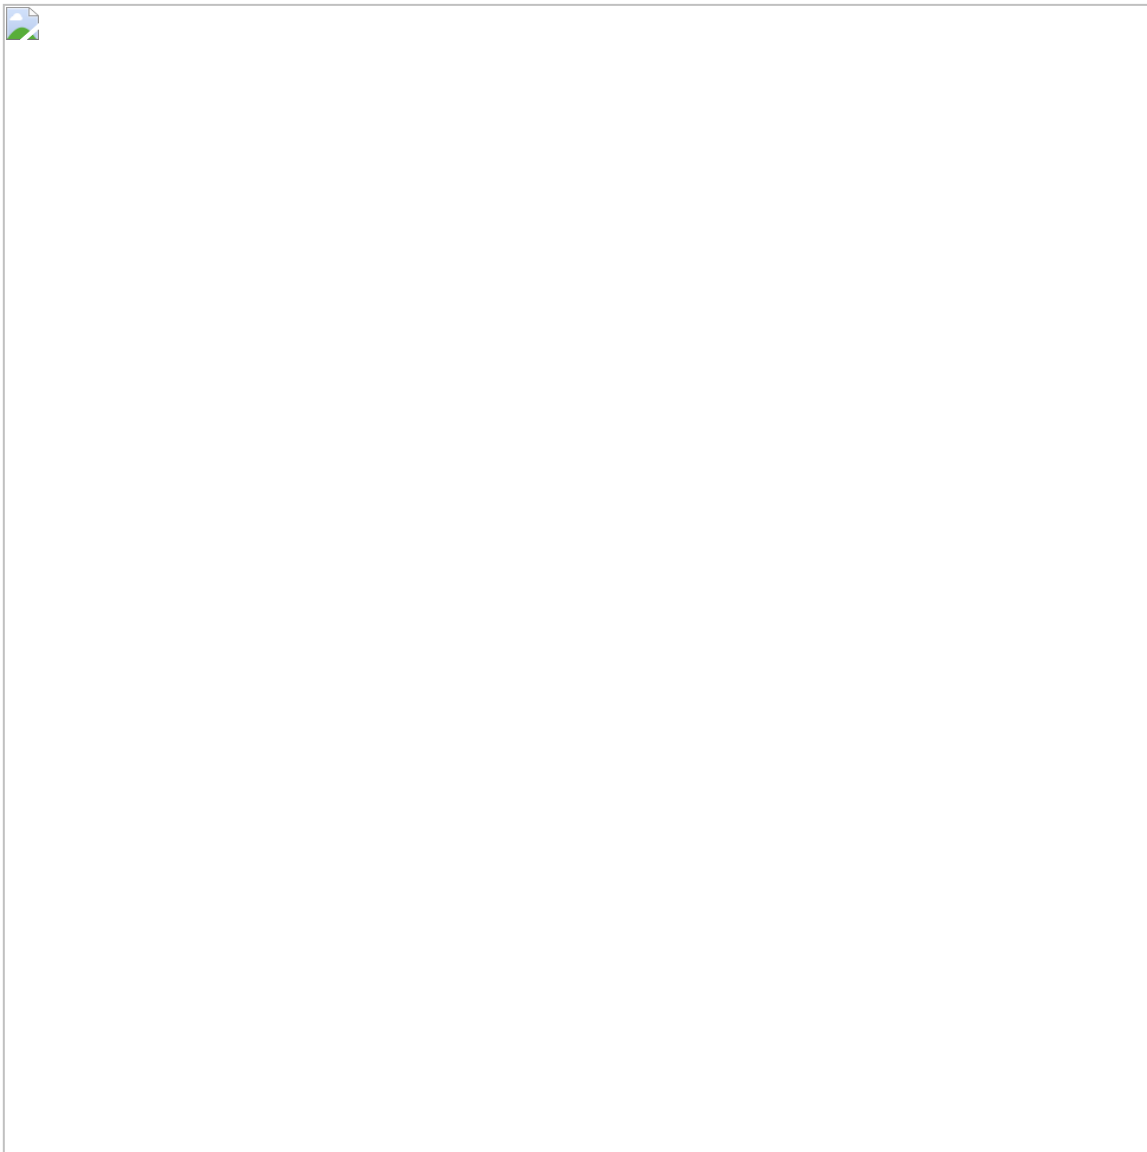

when exposed to wireless radiation. [Learn more](#)

Australia Channel 7 News Reports on Schools Pulling out Wi-Fi

Are we putting our kids' health at risk? Around the world, an increasing number of countries are banning or warning against the use of Wi-Fi in schools. Pippa Gardner reports on a school banning Wi-Fi in this informative news piece. [Learn more](#)

EHT reminds you to always take precaution with wireless devices. Please share our newsletter with others to protect your friends and family.

EHT needs your help to complete our brain modeling study to learn the true levels of radiation that the brain absorbs from wireless devices. Please help us raise \$20,000 to complete this critically important study being conducted by EHT teams working in Brazil with some of the nation's most distinguished researchers. [Learn More](#) about what it means to be a volunteer.
