

We Are Leading The Way To Safe Technology

Thanks to your support, EHT is gaining ground every day towards government accountability on the issue of 5G and wireless emissions. Please take the time to watch and share the latest updates on our lawsuits and the awareness raising efforts worldwide.

Want to be a part of the live filming? Support EHT by joining us on Patreon where you can participate in live discussions with us. This month we are excited to interview "Screen Children" author Meltem Küskü (next Tuesday) as well as Rinat Strahlhofer and Tashi Lhamo leading the campaign #WeAreNotSam. Your financial support allows us to create invaluable content shared around the world!

Breaking! The California Green Party released a new statement calling for the application of the Precautionary Principle to the deployment of 5G, that the government launch an independent scientific environmental review of 4G/5G wireless exposure, and halt FCC satellite networks on earth.

**Lake Tahoe
Lawsuit**

Video: The Tahoe Lawsuit Press Conference

Watch lawyers and petitioners explain the precedent setting federal case regarding 5G and cell towers filed against the Tahoe Regional Planning Agency and Verizon Wireless.

The Environmental Effects of 5G

EHT interviews Katie Alvord about her investigation published in the Society of Environmental Journalists on the environmental effects of 5G and wireless. Alvord describes how she became involved and why she sees this issue as a critical issue for other journalists.
