Cell Phone Radio Frequency Radiation Studies

"Our results and the results of other experiments suggest that non-thermal exposure of cells or whole organisms to RFR may result in measurable genotoxic effects"

"In conclusion, these results suggest that exposure to RFR is associated with an increase in DNA damage."

-US National Toxicology Program

US Government: Cell Phone Radiation is Associated with DNA Damage

The scientific findings from the \$30 M US National Institutes of Health study found DNA damage in both mice and rats. The study was just published in Environmental and Molecular Mutagenesis. [READ MORE](#)

Health and Safety Best Practices for Digital Devices in the Classroom

Be aware of proper positioning when using devices.

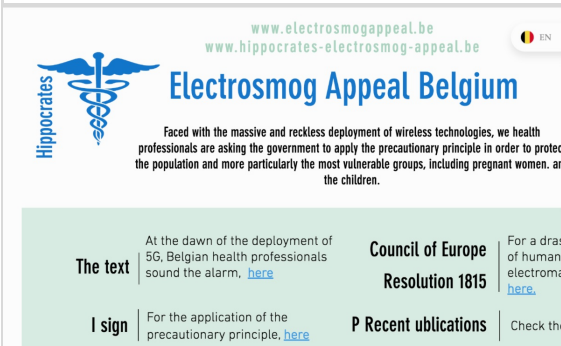

Students should:

- Use devices seated upright.
- Maintain appropriate distance from the screen.
- Keep monitors at or near eye level.

Questions After Maryland Issues Best Practices for Screens

The Maryland Department of Education issued the first of its kind US state guidance but omits blue light and radiation health effects.

ENVIRONMENTAL HEALTH TRUST IS NOW ON PATREON.

Become a Patron!

Support EHT on Patreon and:

- Get VIP access to live webinars with scientific experts
- Join live video conversations, ask questions
- Receive a downloadable resource kit.

[Educational Webinar on 5G](#)

Want a summary of the environmental and human health impacts of 5G?

Watch EHT Executive Director present the first in a series of educational videos to educate and elevate. Please watch share and support our work by joining Patreon to be a part of these webinars.

[Watch the Video](#)

[Dr. Anthony Miller 5G Interview](#)

Listen to Dr. Miller share why hundreds of scientists are calling for a moratorium on 5G.

Dr. Miller has published over 600 peer reviewed research studies in environmental health.

[Watch the Video](#)

[Large and Small Posters 5G](#)

EHT created a large poster (24 by 36) you can use for presentations on 5G or when you set up a table at a local fair.

Increased radiation, increased energy use, privacy violations and lowered property value are listed. Stay tuned as we will soon release more.

We also created factsheets for regular paper 8.5 by 11 in color and black and white.
