

# **Schools and New Technology**

**Mr. Reuven Kurman, CIO  
Haifa Municipally  
Education System**

# 21<sup>st</sup> Century Skills

## Ways of Living

- Independent learner
- **C**ommunication
- **C**ollaboration & Social adaptation

## Ways & Tools of Working

- Computer & Information Literacy (CIL)
- Information & Communication Technology (ICT)

## Ways of Thinking

- **C**reativity & innovation
- **C**ritical thinking, problem-solving, decision making
- Metacognition: Learning to learn

# Computer-assisted Learning

**Goal:** Improve learning, teaching & assessment processes

**Tool:**

Design & implementation of  
Innovative learning environments

## Computer-assisted Learning

### Alliance **middle** school, Haifa

- ☐ Blogs
- ☐ Digital Boards
- ☐ Online questionnaires
- ☐ Social networks
- ☐ Thinking maps
- ☐ Collaborative workspace:  
docs, presentations
- ☐ Comics
- ☐ Digital books
- ☐ Interactive maps

# **Using technology in the classroom:**

## **Advantages**

- ✓ Relevant to the children
- ✓ Innovative Environment for the Development of 21<sup>st</sup> century skills
- ✓ Access to latest information
- ✓ Ability to learn anywhere, anytime, including during emergency
- ✓ Automates tedious tasks & reports for teachers

**We need Communication!**

# Using technology in the classroom:

## Disadvantages

-  Dependency on equipment & internet connection
-  Distraction from the main point ?
-  No equal access to technological resources at home
-  Privacy & bullying issues
-  Does it guaranty independent thinking ?
-  Is the teaching level necessarily improved ?
-  Digital Dementia ?
-  **Might expose to radiation**

## Using technology in the classroom:

### When to start?

- ☐ Kindergarten?
- ☐ Elementary school?
- ☐ Middle school?
- ☐ High school?

**Keep Continuity**

# Data Communication

School

**LAN**

Local Area Network

Router

**The  
Last  
Mile**

Public ISP:  
Infrastructure +  
Content providers

**WAN**

Wide Area Network

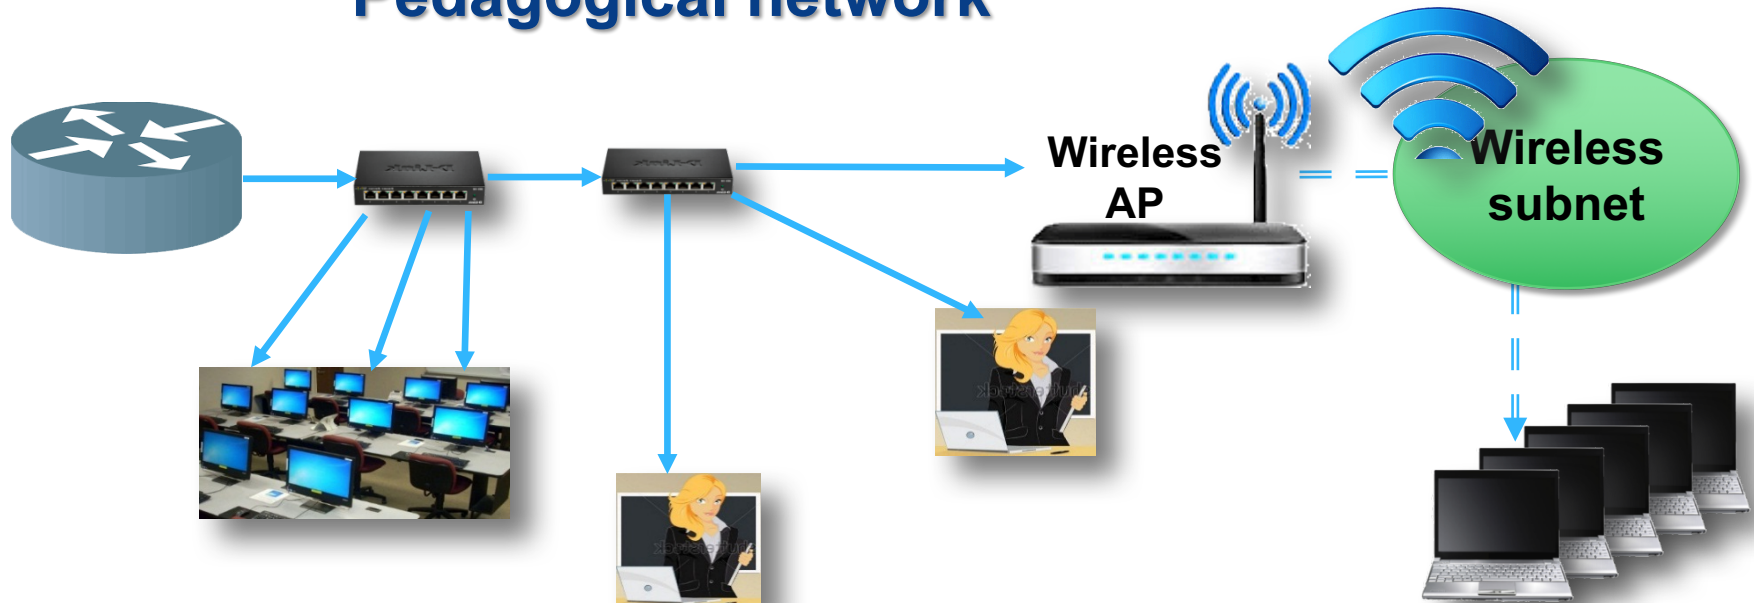

# School's networks

## Executive network

## Pedagogical network

## WiFi equipment used in Haifa:

- 👍 A central controller on our premises
- 👍 Passive beam scanning
- 👍 **M**ultiple **I**nput **M**ultiple **O**utput (MIMO) technology

# Radiation levels measured in schools in Haifa

Recommendation:	Radiation level Micro Watt /cm <sup>2</sup>
USA: Federal Communications Commission	1,000
Israel (recommendation): Ministry of Environmental Protection	50-100 (in closed space)
Israel: Parents	1
Haifa: <b>Measured</b>	<b>0.1</b>

- ☐ Is the data measured relevant? Should we measure heat ?
- ☐ Should we measure radiation at the wireless router only ?
- ☐ When should we measure radiation in a closed space ?
- ☐ Does the measuring equipment have the correct sampling rate ?

# Precautionary Principle

- ❑ **Avoid** activities that may lead to harm
- ❑ The decision maker is **responsible** for any harm caused
- ❑ Lack of scientific evidence **doesn't justify taking risks**

## WiFi deployment in schools

### Ministry of Education Memo:

- Curriculum regarding radiation awareness to start from 1<sup>st</sup> grade
- Turn off wireless devices when not in use
- Charge devices during night
- Restrict use of equipment by age

### Municipality of Haifa:

- Wired internet preferred
- Auto reduction of wireless transmission to required min
- At least 1 router per space to reduce transmission intensity
- Elevated router to reduce transmission intensity

# Research and Policy Needs for Environmental Health - 2017

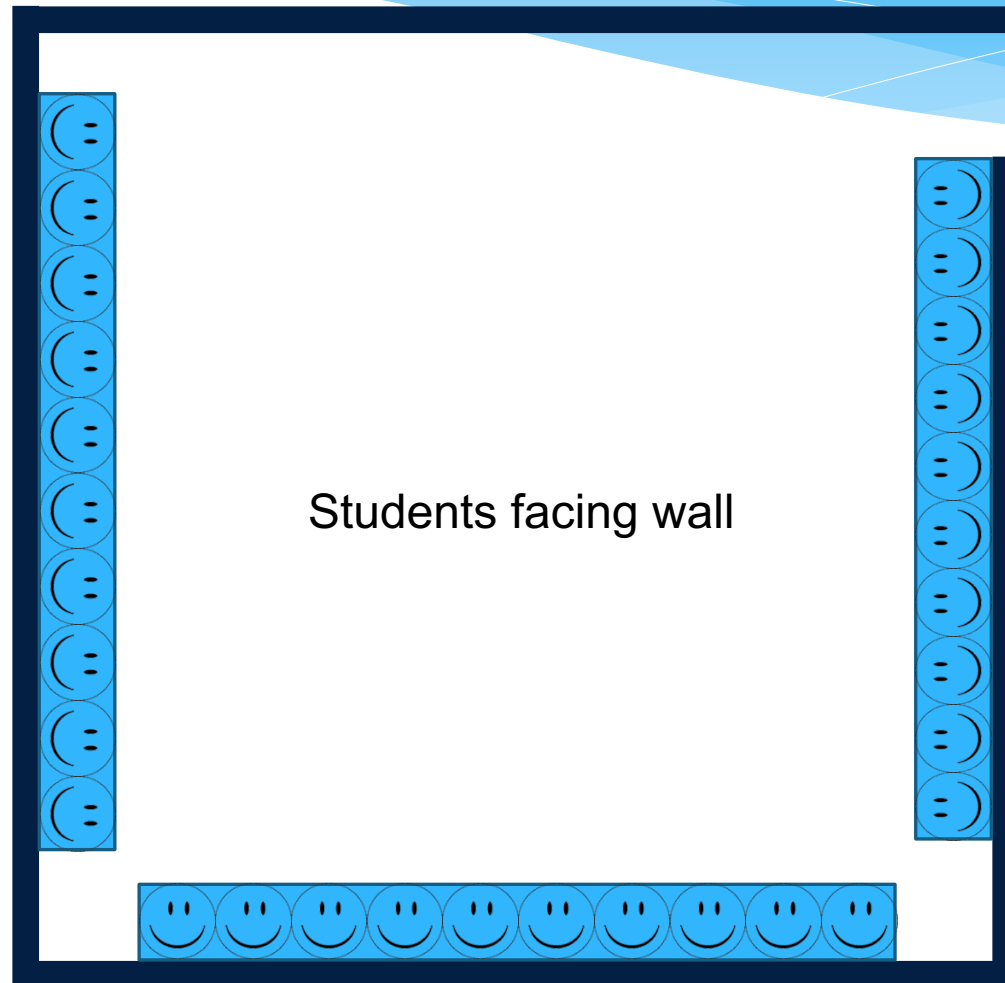

## Wired classroom: Architecture 1 (in use)

Partition height ~ 1m

# Research and Policy Needs for Environmental Health - 2017

## Wired classroom: Architecture 2 (in use)

## **Wired classroom: Architecture 3**

### **Desks fixed to floor (in use)**

# Research and Policy Needs for Environmental Health - 2017

## Wired classroom: Architecture 4

## Recommendations

- ❑ **Information** to: teachers, children, parents
- ❑ A school **Treaty**
- ❑ Radiation risks **program** implementation
- ❑ **Blended learning** for minimal exposure
- ❑ **Prevention:** 1:1 Meetings with schools principles
- ❑ Use **wired** internet

## Suitable Equipment for young children

### Implications:

- ☐ Children's health & safety
- ☐ Purchase by municipality:
  - maintenance
  - renewal
- ☐ Legal implications:
  - parents financial participation
  - equality or inequality?

✓ Desktop

✓ Laptop

✓ Netbook

? Tablet

? Smart Phone
